PROGRESSIVE DISCOUNT

The Holder will be entitled to discounts that will be applied through the issuance of free travel tickets. The accumulation of points, useful to establish the type of discount to be applied, will be reset every thirty days or at the end of the fourth and last purchase cycle, and will resume at the first payment step carried out by the Holder.

In any case, during each 30-day period, the Account Holder may accumulate points for a maximum of four purchase cycles. Any additional cycles within the same period will not entitle the Account Holder to accumulate further points.

The aforementioned timing will be counted automatically, by means of the appropriate terminals, from the date of registration for the programme.

The travel tickets valid for the purposes of calculating the progressive discount are:

- ◆ **One-way** car/motorbike ticket (1 point)
- ◆ **Same-day return** car/motorbike ticket (1 point)
- ◆ **Return within 3 days** car/motorbike ticket (2 points)
- ◆ **Return within 90 days** car/motorbike ticket (3 points)

Free tickets will be established and issued after the Holder carries out a **purchase cycle of three consecutive tickets**.

At the end of each cycle, the free tickets will be electronically associated with the card and visible through the appropriate terminals provided to the ticket booths used for the service (including online booking).

The type of ticket issued will be defined by the points accumulated during the completion of each individual cycle.

- ◆ A Purchase Cycle variable from:
 - **3 to 8 points will entitle you to a Free 'Return within 3 days' Ticket;**
 - **9 to 12 points will entitle you to a Free 'Return within 90 days' Ticket.**

The amount of the discount will vary proportionally to the number of cycles completed, and ranges from a minimum of 25% to a maximum of 48%.

- ◆ In the event that the **First Purchase Cycle is completed**, the Holder will receive 1 free ticket, for a total discount of 25%.
- ◆ In the event that the **Second Purchase Cycle is completed**, the Holder will receive an additional 2 free tickets, for a total discount of 33%.
- ◆ In the event that the **Third Purchase Cycle is completed**, the Holder will receive an additional 3 free tickets, for a total discount of 40%.
- ◆ In the event that the **Fourth and last Purchase Cycle is completed**, the Holder will receive an additional 5 free tickets, for a total discount of 48%.

A purchase cycle cannot accumulate tickets for cars and motorcycles, which will be covered by a separate discount accumulation count.

Any request to cancel a ticket that is part of a purchase cycle that has already ended, and therefore has resulted in the issuance of one or more free tickets, cannot be accepted.

It should be noted that the points earned for the purposes of this bonus are independent of the Miles accumulated for the general operation of the Programme and do not entitle you to any additional advantage with respect to what is outlined above.

If you get a free ticket at the end of a purchase cycle this one is available exclusively through the web sales channel.

Obtained a free ticket any purchase made before using it will not be counted by the gradual discount counter consequently it will not be possible to collect additional free tickets. In this case only mileage accrual will be possibile
